AGRICULTURAL AND POMOLOGICAL
INVESTIGATIONS

OF...

~ 1898. ~

OFFERED BY...

W.E. Dallwig

34 Juneau Ave.,

* * * MILWAUKEE, WIS.

Don't Forget that we make a specialty of the finest strains of Onion Seed.

Our Bloomsdale Yellow Globe Danvers, handled by us exclusively, is the Acme of Perfection. It never fails to give satisfaction.

In the Excelsior Pickling (see illustration) we have the long sought for *small, round, white* Pickling Onion. The best seller. Try it.

Special Notice

WE handle absolutely nothing which we do not believe to be the best obtainable, and know that we have unequaled advantages for the procurement of the best seeds at a cost which will enable us to offer them to our customers at the lowest prices at which well grown and selected seeds true to name can be furnished: but we do not claim to compete in prices with those made by irresponsible and haphazard growers and dealers whose sole effort is to secure the lowest priced seeds regardless of quality; such seeds are not cheap, but dear at any price.

TAKE NOTICE.

The following prices are based upon the quantities indicated, and will not be allowed when smaller quantities are ordered than given in this list. Subject to change without notice.

Bur Notiz.

Die nachstehenden Preise sind auf die angegebenen Quantitäten basirt, und sind nicht gütig, wenn weniger bestellt wird als die Quantitäten worauf sich die Preise beziehen. Sind Schwankungen unterworfen.

TERMS—NET CASH. On vegetable seeds to be sent by mail, in quantities of one-half pound and upward, postage must be added to catalogue prices at the rate of 8 cents per pound. In the case of beans and peas, in quantities of one pint and upwards, please add 15 cents per quart, on sweet corn 10 cents and field corn 15 cents per quart to catalogue prices for mailing.

We give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds we send out, and we will not be in any way responsible for the crop.

W. E. DALLWIG.

WHOLESALE LIST

for

Market Gardeners.

ASPARAGUS.

If you want an insecticide,

Ask for Hammond's

Slug Shot.

THE

LITTLE ASPINWALL SPRAYER

OR *

* LIGHTNING BUG EXTERMINATOR.

Weighs empty less than one pound.

Has a capacity of about fifteen hundred blasts.

For the extermination of Potato Bugs and all Plant Insects.

For spraying the Poultry House to exterminate the Lice.

For spraying Green House Plants.

The poison is applied moist and therefore adheres to the plant. It is not necessary to make the application when the dew is on as in the case with all dry powder guns and it is not necessary to carry around one or more pails or barrels full of water, as is the case with the knapsack pump and the like.

With the Little Aspinwall Sprayer the poison is applied full strength in a very fine mist; there are no spots with heavy blotches of poison to burn and kill the plant and other blotches with no poison at all; the plant is thoroughly covered as by dew, with absolutely no waste.

The farmer will find it is the most practical tool made for spraying potato vines, vegetable plants of all kinds, currant and raspberry bushes, grape vines and every form of vegetation infested by any living pest.

The poultry farm is not complete without it. For exterminating lice the interior of the house and the roost should be thoroughly covered, using a strong mixture of insect powder in water.

Florists particularly will appreciate the value of this tool and every florist should have one; the fine mist is so evenly distributed that tender plants are not injured.

For spraying cigar wrappers it has no equal.

For stockmen it is a great boon being the cheapest, the easiest to handle and the most effective of any implement for stock spraying. Horses, cattle and swine can be quickly and thoroughly covered by its use to prevent the ravages of Texas flies and other pests.

The Little Aspinwall Sprayer is the most successful sprayer in the world, and is the only one adapted to such great variety of uses.
